

GETTING INVOLVED

We are always interested in meeting people who share our heart for children.

There are various opportunities available for individuals (jr. high - adult) to help children.

To be involved, you don't need to be a professional teacher or have prior teaching experience

We aim to have people serve within the Children's Ministry:

- where they will feel comfortable
- where they can use their personal gifts
- with an age group that they enjoy
- with other people they enjoy

What to expect as a member of the Children's Ministry team:

- you'll have the support of a great staff who will get to know you, help you find the place you best fit, and make sure you have what you need to succeed.
- you'll be mentored into ministry - serving with an experienced teacher.
- you'll experience the unconditional love of sweet children.
- you'll get to know like-minded people who also enjoy working with children.

Our volunteers have all been through an application and background check process. This process is to ensure they are suitable to work with children; keeping the children safe is our top priority. The application and background check forms are kept confidential and are seen only by those assigned to monitor the process.

For further information about joining our great volunteer staff, you can email the Children's Ministry department at markd@v1ag.com or call 559.733.9070 extension 123.
